## **INDEPENDENT AUDITOR'S REPORT**

The Honorable Members of the City Council  
City of Batavia, New York

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of Batavia, New York (the City), as of and for the year ended March 31, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City, as of March 31, 2017, and the respective changes in financial position and when applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The supplementary information, as listed in the table of contents, the Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the Schedule of New York State Department of Transportation Assistance Expended, as required by Draft Part 43 of NYCRR, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information, as listed in the table of contents, the Schedule of Expenditures of Federal Awards and the Schedule of New York State of Department of Transportation Assistance Expended are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as listed in the table of contents, the Schedule of Expenditures of Federal Awards and the Schedule of New York State Department of Transportation Assistance Expended are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated September 26, 2017 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

*Fried Maxick CPAs, P.C.*

Batavia, New York

# **Management's Discussion and Analysis**

## **City of Batavia, New York**

### **Fiscal Year ended March 31, 2017**

This section of City of Batavia, New York's (the City) annual financial report presents its discussion and analysis of the City's financial performance during the fiscal year ended March 31, 2017. Please read it in conjunction with the City's financial statements, which immediately follow this section. **ALL AMOUNTS ARE EXPRESSED IN THOUSANDS OF DOLLARS, UNLESS OTHERWISE INDICATED.**

#### **Preliminary Summary**

In the fiscal year ending March 31, 2017, the City continued to maintain a healthy and stable financial position. This is the seventh consecutive year the City has maintained a positive unassigned fund balance. Despite challenges such as slow tax base growth and state mandates (ie. the property tax cap) the City continues to remain fiscally diligent by committing one-time surplus to restricted fund balance for future capital investments.

In reviewing the attached financial statements, it is important to understand the critical points of achievement over the past year that have assisted the City with improving its financial stability. These points include:

- Continued strength in assigned and unassigned fund balance in the general fund and cash growth in water and sewer funds
- Healthy operations in general, water and sewer funds
- The commitment of surplus to reserve funds for one-time equipment purchases and infrastructure and facility improvements
- The formal adoption of fiscal policies such as a Fund Balance Policy, Investment Policy, revised Purchasing Manual and monthly financial monitoring

These efforts along with continued expense monitoring and revenue improvements have assisted in maintaining long term fiscal solvency, while building fund balance and investing in capital equipment, city facilities, and infrastructure.

#### **Financial Highlights**

- As shown on page 27, there was an excess of expenditures over revenues of \$1,047,390 at March 31, 2017. After net transfers out of other financing sources in the amount of \$336,149, there was a negative net change in fund balance of \$1,383,539. This was due to over \$1,700,000 of planned capital expenditures and unexpected retirement and healthcare costs which utilized restricted and committed fund balances.
- Factors contributing to the general fund's net change were primarily due to one-time expenditures related to capital projects. Absent of those capital expenditures, the general fund resulted in excess revenues over expenditures primarily due to the City experiencing several vacancies throughout the year causing lower than budgeted personnel and social security expenditures and not utilizing the full contingency budget.
- The City utilized over \$1,700,000 of reserve and committed funding for capital equipment replacement, facility improvements, sidewalk improvements and unexpected retirement and healthcare costs. The general fund also budgeted \$146,000 to further build reserves for anticipated liabilities/costs in future years.

- The City's Purchasing Manual revisions, adopted Fund Balance Policy, Investment Policy and the increase in financial reporting to the City Council, supports the City's commitment to strong fiscal planning.
- New York State AIM (Aid and Incentives for Municipalities) stayed flat in the fiscal year ending March 31, 2017. However, since fiscal year ending March 31, 2011, New York State reduced AIM by 6.9% or \$109,949. Meanwhile, New York State retirement costs have increased 27% or \$403,894 since fiscal year ending March 31, 2009.

It should be noted that these budget areas are subject to changes from year to year. Consistent with the City budgeting practices of the past, the City commits surplus funds to decreasing debt or increasing reserve fund balances for future liabilities such as equipment, facility and infrastructure improvements.

### **Overview of the Financial Statements**

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two statements that present different views of the City:

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the City's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the City, reporting the City's operations in more detail than the government-wide statements.
- The governmental funds statements tell how basic services such as public safety and transportation were financed in the short term as well as what remains for future spending.
- Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the City's budget for the year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

**Figure A-1**

***Organization of City of Batavia, New York's Annual Financial Report***

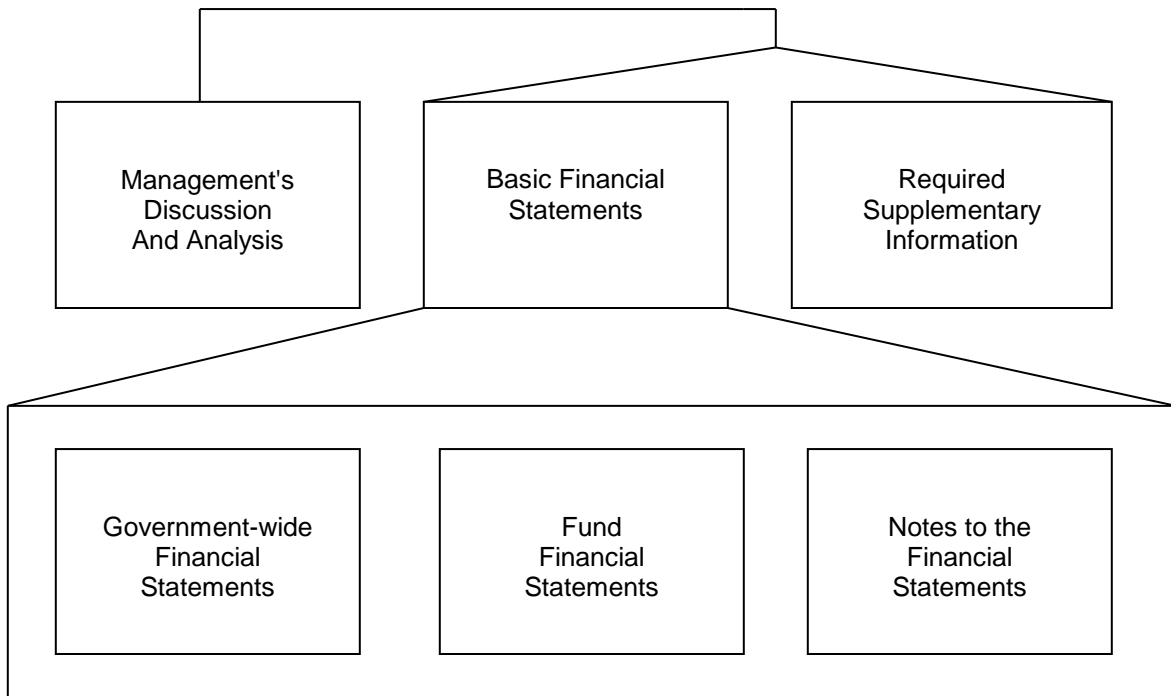

Figure A-2 summarizes the major features of the City's financial statements, including the portion of the City's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

<b>Figure A-2</b> <b>Major Features of the Government-wide and Fund Financial Statements</b>			
		Fund Financial Statements	
	Government-wide Statements	Governmental Funds	Proprietary Funds
Scope	Entire government (except Fiduciary funds)	The activities of the City that are not proprietary or fiduciary, such as public safety and transportation	The activities of the City in which the City charges for services
Required financial statements	<ul style="list-style-type: none"> <li>• Statement of Net Position</li> <li>• Statement of Activities</li> </ul>	<ul style="list-style-type: none"> <li>• Balance Sheet</li> <li>• Statement of Revenues, Expenditures, and Changes in Fund Balances</li> </ul>	<ul style="list-style-type: none"> <li>• Statement of Net Position</li> <li>• Statement of Revenues, Expenses and Changes in Net Position</li> <li>• Statement of Cash Flows</li> </ul>
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and deferred outflows of resources and liabilities and deferred inflows of resources, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; generally no capital assets or long-term liabilities included	All assets and deferred outflows of resources and liabilities and deferred inflows of resources, both financial and capital, short-term and long-term
Type of inflow/out-flow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during year, regardless of when cash is received or paid

## **Government-wide Statements**

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The government-wide financial statements present the financial position of the City from the economic resources measurement focus using the accrual basis of accounting. They present governmental activities and business type activities separately. These statements include all assets of the City (including infrastructure) as well as all liabilities (including long-term debt).

The two government-wide statements report the City's net position and how they have changed. Net position - the difference between the City's assets and liabilities - is one way to measure the City's financial health or financial position.

- Over time, increases or decreases in the City's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the City's overall health, one needs to consider additional non-financial factors such as changes in the City's property tax base and the condition of the City's infrastructure and other facilities.

In the Statement of Net Position and the Statement of Activities, the City's activities are separated as follows:

**Governmental activities** - Most of the City's basic services are reported in this category, including the general government, police, fire, public safety, health, transportation, economic assistance, culture and recreation, home and community services, and refuse and recycling. Property and sales taxes, user fees, interest income, franchise fees, and state and federal grants finance these activities.

**Business-type activities** - The City charges a fee to customers to cover all or most of the cost of certain services it provides. The City's water and sewer activities are reported in this category.

## **Fund Financial Statements**

The fund financial statements provide more detailed information about the City's funds, focusing on its most significant or "major" funds - not the City as a whole. Some funds are required to be established by State law. However, the City Council establishes other funds to control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants or other money.

The City has three kinds of funds:

- **Governmental Funds:** Most of the City's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information provided with the governmental funds statements explains the relationship (or differences) between them.

- **Proprietary Funds:** These funds are generally used to account for services for which the City charges customers (both external and internal). These funds use accrual accounting, which is the same method used by the private sector. The City of Batavia has two enterprise funds. The City's enterprise funds are the water and sewer funds. Enterprise funds provide the same type of information as shown in the government-wide financial statements, only in more detail. The enterprise fund financial statements provide separate information for each of the enterprise funds, both of which are considered to be major funds of the City.
- **Fiduciary Funds:** The City is the trustee, or fiduciary, for assets that belong to others, such as deposits. The City is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The City excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

### **Financial Analysis of the City as a Whole**

In recent years the City has focused their efforts on proactive financial management and strategic planning emphasizing the City's financial health with specific measured results reviewed every month by City Council. Through these efforts and with multi-year financial planning, the City has committed to and prepared for long-term financial stability and investments.

- **The annual budget.** In reflecting on the City's multi-year financial plan, the City has maintained a responsible tax rate. The City continues to closely monitor expenses and conservatively budget revenue. While expenditures exceeded revenues due to planned capital expenditures utilizing restricted and committed fund balance, without such capital expenses, the annual budget performance resulted in a surplus, as well as unassigned fund balance growth. As a result, it is recommended that \$541,000 of unassigned fund balance be transferred to restricted and committed fund balances for future capital projects. Consistent with the City's budgeting practices of the past, the City should committ these surplus funds to decreasing debt or increasing reserve fund balances for future liabilities such as equipment, facility and infrastructure improvements.
- **Strategic use of unexpected revenues and/or surpluses.** The City uses one-time revenues/surpluses to offset capital project expenses, build fund balance and reserves, assist in purchasing equipment and improving infrastructure. The City remains cautiously optimistic and budgetarily conservative as major revenue sources such as sales tax and State aid, and expenses such as retirement contributions and healthcare costs continue to be inconsistent. The increase in unassigned fund balance should be paired with the City's fund balance policy and one-time surpluses are recommended to be moved to restricted fund balance to support future equipment, facility and infrastructure needs.

It should be noted that the City experienced a decrease in sales tax receipts for fiscal year ending March 31, 2017. This is the first time since 2010 the City has experienced a decrease in sales tax when compared to the prior year. In addition, healthcare expenditures were approximately \$339,616 over budget due to a high healthcare claim. Due to this high claim, \$132,822 was transferred from the healthcare reserve to assist in balancing the healthcare budget. Both sales tax revenue and healthcare expenditures are significant budget items and should they continue to perform negatively in future years, structural budget changes may have to be considered.

- Investment in City vehicles, equipment, infrastructure and facilities. The City has aggressively accomplished planned capital projects outlined in the Capital Infrastructure Plan (CIP). In addition, the City has completed several sewer and water infrastructure projects on a cash for capital basis. An Equipment Replacement Plan (ERP) has also been developed to assist with investing in and replacing the City's fleet of vehicles and equipment. The City has also adopted a Parking Lot and Sports Surface Management Plan that provides a 10 year outline of annual investments for City parking lots and sport surface improvements. In the year ending March 31, 2017, the City planned over \$1,700,000 of capital equipment replacement, facility improvements, sidewalk improvements and unexpected retirement and healthcare costs. Continued planning and investment is needed for long-term stable operations, otherwise one-time equipment and emergency purchases, facility repairs and infrastructure replacement may force the City to increase property tax rates, water and sewer rates and/or debt service levels to meet service demands.
- The City's Strategic Plan. The intent of the City's Strategic Plan is to allocate available resources to best meet the needs of City residents, while balancing the environmental factors that may affect us in the future. Created during the fiscal year ending March 31, 2011, the strategic plan began with a survey of citizens that progressed to creating strategic priorities defined by directional statements. Key intended outcomes linked to the strategic priorities with associated performance goals, became the basis for the annual budget and ultimately the City's Business Plan was created. In May 2014 the City was awarded the 2014 Strategic Leadership & Governance Program Excellence Award by the International City/County Management Association. The award recognized the City's Strategic Business Plan as an innovative and successful local government program and process that has significantly affected a local government's organizational strategic direction. In fiscal year ending March 31, 2017, the City Council updated the Strategic Plan outlining new key intended outcomes and performance objectives to align with City resources.
- State Comptroller's Fiscal Stress Initiative. In May 2014, the New York State Comptroller Thomas P. DiNapoli announced the completion of the initial scoring for all local governments and school districts in New York in the Fiscal Stress Monitoring System. Batavia was issued a fiscal stress score of 0% for each year from 2012 and 2016 the lowest (best) possible score. This further indicates the progress made resulting from the City's planning, budgeting, and good fiscal management decisions.
- Bond Rating Upgrade. A bond rating upgrade is an objective outlined in the City's Strategic Plan. On July 19, 2012 Moody's Investors Service upgraded the City's bond rating from "A2" to "A1". The upgrade reflects the City's improved financial position marked by consecutive years of operating surpluses, as well as, the City's practice of conservative budgeting of both revenues and expenditures. The rating also factors in the City's moderately sized tax base, below average wealth levels and average direct debt level.
- Fund Balance Recovery. In fiscal year ending March 31, 2006 the City's total fund balance was a deficit \$1,302,857. Fiscal year ending March 31, 2017 the City's total fund balance is \$7,105,375. This recovery in fund balance is due to instituting diligent fiscal management and policies, and as a result has provided the City with the wherewithal to make needed capital investments to provide good services to residents. Continued fiscal prudence also provides the City with the ability to balance better economic times with challenging times.

### **Capital Projects**

The Summitt Street Reconstruction project began May 2016 and was completed in November 2016. The Summit Street Reconstruction was in final design, when in December 2013, funding was revoked by New York State. However, federal and state funding was reinstated the summer of 2015.

The City completed a \$1,900,000 sludge removal project at several of the wastewater treatment plant's lagoons. This capital improvement was planned for as part of the City's capital plan and has been financed with general obligation bonds.

The City utilized over \$100,000 of reserve funds for the sidewalk improvements. In addition the City utilized over \$249,000 of Consolidated Highway Improvement Program (CHIPs) funding for street resurfacing.

#### ***Condensed Statement of Net Position (in thousands of dollars)***

	Governmental Activities			Business-Type Activities		
	2017	2016	Increase (Decrease)	2017	2016	Increase (Decrease)
Current and other assets	\$ 11,331	\$ 12,631	\$ (1,300)	\$ 16,190	\$ 18,148	\$ (1,958)

Restricted	4,942	5,452	(510)	5,972	5,707	265
Unrestricted (deficit)	(2,607)	(1,441)	(1,166)	7,744	7,367	377
Total net position	\$ 21,773	\$ 20,901	\$ 872	\$ 37,247	\$ 36,868	\$ 379

### Governmental Activities

Governmental activities experienced an increase in the City's net position by \$872,255 when compared to the prior years increase. Key elements of this increase are as follows:

- Revenues increased by 11.7% and expenses increased by 19.5% when compared to prior year. This was primarily due capital grants related to the Summitt Street reconstruction project.
- General Government, Police and Fire expenditures increased when compared to the prior year due a police retirement benefit settlement as part of collective bargaining negotiations and an increase in one firefighter position as part of the fire collective bargaining contract.

### Business-Type Activities

Business-type activities experienced an increase in the City's net position by \$379,317 compared to the prior years increase due to increase water rents and capital improvement fee.

### **Financial Analysis of the City's Funds**

The fiscal year ending March 31, 2017 concluded with an unassigned fund balance of \$1,821,971 after restrictions and assignments for encumbrance, reserves and other fund balance commitments. This is the eighth consecutive year the City has maintained a positive fund balance.

#### **The General Fund**

Revenues for the general fund decreased compared to last year by \$118,841. This is primarily due to a decrease in sales tax collections. The City identified the possibility of receiving less in sales tax revenues, and proactively budgeted less in sales tax revenue in comparison to the prior fiscal year to absorb any negative impact on the budget bottom line.

Total expenditures were \$2,661,480 greater than the prior year primarily due to over \$1,700,000 in additional capital expenditures, one outlier healthcare claim (\$330,000) and a one-time retirement benefit (\$100,000) for police as part of collective bargaining.

#### **Water Fund**

The water fund, including depreciation, had a current year increase in net position (pg 30) of \$287,517, compared to last year's increase of \$347,082. Increases in charges for services (water rents) and capital improvement fees accounts for the biggest change from last year, while decreases in the County contract expenses contributed to the Fund's improvement in net position.

#### **Sewer Fund**

The sewer fund, including depreciation, experienced an increase in net position (pg 30) of \$91,800 compared to last years increase of \$58,333.

### **Self Insurance Fund**

This year's self insurance fund balance (pg 67) increased by \$13,806. This is primarily due to less unexpected expenditures related to open claims from when the City was self-insured (pre-March 31, 2009) than in prior years. The City returned to a self-insured plan effective April 1, 2016 and has established a safety committee to review and assess claims.

### **Capital Projects Fund**

Summitt Street Reconstruction was completed in 2016. While construction funding for Summitt Street Reconstruction was originally revoked in December 2013 it was reinstated in 2015 and construction began in Spring 2016 and ended November 2016.

## General Fund Budgetary Highlights

Amendments to the budget occur throughout the year for a variety of reasons. Possible factors include encumbrances from the prior year, unexpended purchase orders which are added to the current year budget at the close of the prior year, grants or other forms of financial aid which were received during the year but not anticipated in the original budget, appropriations of fund balances needed to offset unanticipated and unavoidable expenditures, and transfers of appropriations among object classes within department budgets to address particular requirements not anticipated in the original budget. The City Council approves and authorizes the annual budget at the level of object class totals within each department. The City Manager has the authority to transfer appropriations among line items within a department. All transfers between departments and funds must be approved by City Council. The encumbrances on prior year purchase orders are added to the budget as part of the annual financial closing process. All other budget amendments must be authorized by formal resolution of the City Council.

The City general fund experienced a decrease in fund balance over the prior year of \$1,383,539. This was primarily due to planned expenditures of reserve funds of over \$1,700,000 for budgeted capital equipment replacement, facility improvements, sidewalk improvements and unexpected retirement and healthcare costs. However, the City's unassigned fund balance remained stable providing the City an opportunity to meet its unassigned fund balance objective of 10% of general fund expenditures while continuing to build several reserve funds for future liabilities.

Revenues experienced some changes over the prior year. These revenues include:

- Sales tax revenue decreased by 2.3%, or \$142,047, when compared to the prior year. The City's sales tax revenue is an economically sensitive revenue, and is subject to volatile swings in receipts, as witnessed in the not so distant past. For the past three years, annual sales tax growth has slowly dwindled to a loss, while the three years prior annual average growth was almost 6%.

Expenditures that experienced significant change over the prior year were:

- Health care expenditures increased over last year by \$339,616. This was due to a one-time high claim.
- Due to the \$1 transfer of the former Della Penna property to the Batavia Development Corporation, the City experienced a loss on sale of property in the amount of \$262,770.

One expenditure that was greater than original budget was healthcare expenditures. In prior years, healthcare expenses have been typically under budget, however fiscal year ending March 31, 2017, had one high unexpected healthcare claim. Healthcare claims continue to be monitored on a monthly basis for abnormal trends.

Aside from conservative budgeting and the utilization of one-time revenues to fund capital acquisitions, the City continued the practice of conservative spending and strict expense monitoring throughout the year.

The City's prudent revenue budgeting and expense monitoring has resulted in general fund surpluses needed to eliminate prior fund balance deficits, grow reserve balances and unassigned fund balance. While the City has experienced several lower than expected expenditures, these one-time savings are short lived and will not continue in future years. Furthermore, depending on the severity of change, revenue declines and expenditure increases, such as healthcare, retiree healthcare and retirement costs, the City may experience challenges in building the financial resources necessary to gain better financial footing. With the New York State Property Tax Cap, the inability to increase property taxes may further limit our ability to maintain services to residents at current levels.

### **Capital Asset and Debt Administration**

#### **Capital Assets**

In the year ending March 31, 2017, the City funded general fund reserves with an additional \$1,345,000. The City continued to make an effort to plan and fund for future equipment and infrastructure improvements, rather than defer funding for these needed improvements. In addition to funding reserves, the City utilized just over a \$1,700,000 of the reserve funds in the general fund to purchase multiple equipment purchases, several additional facility improvements, install sidewalks and absorb one-time healthcare claims, thereby utilizing reserve funding instead of property tax increases or issuance of debt for these types of expenditures.

<b><i>Capital Assets Net of Depreciation</i></b> <b><i>(in thousands of dollars)</i></b>

## Long-Term Obligations

The City received a bond rating of “A2” from Moody’s Investors Service in May 2010. At that time Moody’s recalibrated the scale for municipalities to bring their ratings in line with and more comparable to private organizations. Previously the City’s bond rating was “Baa2”. In June 2011, Moody’s affirmed the City’s “A2” bond rating and assigned the City a “positive outlook”. Moody’s assignment of the positive outlook acknowledged a modest financial position by specifically identifying City management’s ability to restore financial health, establish a Retirement, Health Insurance and Employee Benefits Reserves and negotiated manageable settlements with three of its unions, which included wage freezes and healthcare concessions. In July 2012 Moody’s Investors Service upgraded the City’s bond rating from “A2” to “A1”. The upgrade reflected the City’s improved financial position marked by five consecutive years of operating surpluses as well as the City’s practice of conservative budgeting of both revenues and expenditures. The rating also factors the City’s moderately sized tax base, below average wealth levels and average direct debt level.

More detailed information on the City’s capital assets and long-term debt activity is provided in the Notes to the Financial Statements under 3.C and 3.H, respectively.

<b>Outstanding Long-Term Obligations</b> <b>(in thousands of dollars)</b>

Total	<u>\$ 16,150</u>	<u>\$ 11,674</u>	<u>\$ 3,147</u>	<u>\$ 2,513</u>

## Factors Bearing on the City's Future

Following is a description of both short and long-term factors the City will be forced to deal with in the future:

- General Fund Revenue – Growth in major revenues has leveled off in the past several years. The City's major general fund revenues, payment in lieu of taxes, sales tax, utilities gross receipt tax, cable franchise fees, fines and forfeitures and mortgage tax, which make up approximately 44% of the general fund revenues, has decreased in growth from 1.9% in 2013 to no growth in 2015 and decreases in sales tax in 2016. With nearly half the general fund revenues demonstrating little to no growth there is greater risk of deferring capital expenditures, cutting services and increasing taxes.
- Sales Tax & Water Agreements – In 1999 the City and County entered into the Sales Tax Allocation Agreement formalizing the percentage share of County sales tax to be distributed between the City (16%), County (50%), Towns and Villages (34%). This agreement came in tandem with the creation of the Operation and Maintenance Agreement for the Water Treatment Plant and Water Treatment Facilities Agreement, as all three agreements addressed the Genesee County Public Water Supply Program, economic development and water demands in the County. All three agreements were renewed and extended in 2007 for an additional 10 years.

The City is currently in negotiations with Genesee County regarding the renewal of the water and sales tax agreements, however it is important to note that any percentage change in the City's share of sales tax (16%) that may limit or decrease the City's sales tax from its current position would be detrimental to the City's general fund. Further contributing to the City's general fund revenue challenges. In addition, changes to the existing water agreements that does not promote the continuation of the current relationship between the City and County may result in unexpected increases in the water rates. Both agreements are critical to the financial health of the City, surrounding Town's and Village's and the County.

- Property Tax Cap – The City continues to be proactive in our response to various NYS budget changes and cuts that affect the City. It is important that the City anticipate these well in advance and remain flexible in our ability to respond during the budget process. However the adoption of the property tax cap without mandate relief, has significantly hampered the City's ability to levy the necessary funds to support services. In addition, the tax cap is not a tax cap of 2%, it is rather a cap of 2% or inflation, which ever is lowest. Over the past three years inflation has been under 2%. The City is continually evaluating the impact of the tax cap on the City's budget and services, however if changes are not made in the legislation many communities, including Batavia, will face cutting services and capital investments while increasing taxes in the same year.
- Reserve funding – Funding reserves now for future equipment, infrastructure and facility improvements has been and will continue to be critical in avoiding larger tax burdens in future years. In the fiscal year ending March 31, 2017, the City utilized just over \$1,700,000 of reserve funding to purchase needed equipment and offset liabilities as they came due. Planning for these improvements/liabilities is a major priority in the City's work plan. Updating capital improvement plans and designated revenue streams to fund these plans are essential to maintaining a safe financial position for the City.

- Facility Reserve – For the past five years City Council has restricted surplus revenues to the City's Facility Reserve in preparation of needed improvements to several City facilities including the City's Police Station. In addition, the City has developed 5-year capital plans for Dwyer Stadium and Falletti Ice Arena. The City's Strategic Plan has also outlined a key objective for developing a capital facilities improvement plan for each City facility. A capital plan for the Bureau of Maintenance and Fire Station has been completed and has identified approximately \$650,000 of needed improvements. In preparation of needed upcoming facility improvements, additional reserve funding will provide the City with greater financial capacity to handle future improvements with each facility. Continuing to build this reserve will also allow the City to avoid additional debt service or the temptation to procrastinate or put off needed investments.
- Administrative Services Equipment and Software Reserve – In March 2015 the City Council created the Administrative Service Equipment and Software Reserve to assist with upgrading and meeting the City's information technology and records management needs. This includes replacing antiquated software utilized by the City, some more than 30 years old and operating on a DOS platform. Currently the City is working with a consultant to complete a needs assessment, develop and issue an RFP and assist the City with selecting the best software for replacing the existing system. It is expected that next year the City will be looking to upgrade all financial software including tax collection, utility billing, payroll, accounts payable, accounts receivable and general ledger in addition to code enforcement, planning and assessment software. Considering these upgrades are similar to capital purchases, utilizing reserve funds will allow these improvements to take place without impacting the City's operating budget. It is expected however, that the software upgrades will be paid for with a combination of reserve funds and general obligation bonds.
- NYS Retirement Costs – Since FY 2009/10, annual fluctuations in actual retirement payments have ranged from single digit decreases to double digit increases. Because the State's projected retirement contributions in past years have not been consistent with actual retirement payments, it is prudent to assume retirement costs will increase in future years until consistent and reliable retirement payments are restored.
- Healthcare Costs – On average, for the past five years the City's healthcare costs have increased approximately 8-10% per year. On an annual basis the City analyzes the option of transitioning from a self-insured plan to an experienced-based plan, however the City's ability to maintain manageable annual increases in healthcare costs while building a healthcare reserve makes it financially feasible to remain self-insured. The recent increase in expenditures in healthcare in fiscal year ending March 31, 2017, was due to one unexpected claim, not consistent with the past. Fortunately, the City was able to use its existing healthcare reserve to absorb this unexpected cost. While this claim has currently subsided, we will continue to monitor closely healthcare costs to determine if healthcare claims will return to prior year similarities.
- Retiree Healthcare Costs – Retiree healthcare will continue to increase in the future. The total postemployment health insurance cost to the City for 28 retirees was \$425,780 for the year ending March 31, 2017. While this is a slight decrease when compared to the prior year, retiree healthcare expenses are a large portion of the general fund expenses, are unpredictable and can be extremely volatile due to one single illness. The City's liability for post employment benefits, as of the actuarial valuation date of April 1, 2016, amounted to \$6,015,804, all of which is unfunded. Aggressive labor negotiations to reduce future retiree costs will be essential for maintaining a long term decrease of this liability.

- **Union Contracts** – While all contracts are current, one contract expires March 31, 2018. The City's negotiations will be focused on manageable benefit packages that will not significantly impact future property tax levels. Strong but fair negotiations will have to take place to ensure that future benefit packages are reasonable for City employees and affordable for City taxpayers. In addition, future benefit packages will begin to focus on pay for skill initiatives that will provide employees with better pay and benefits for high performance, more cross training and professional and leadership development.
- **Taxable Assessed Value** – The City has enjoyed an average growth of 1.5% in its tax base annually; however, since 2010 the City's taxable assessed value has been less than 1% annually. As the housing market continues to show slow signs of recovery, the City should expect similar trends over the next several years. In addition, with the adoption of the property tax cap without relief from State mandated expenses, the City's ability to levy the necessary funds to support services is significantly hampered. Considering taxable assessed value is the City's most stable source of revenue, the City needs to continue to make improving the City's tax base, particularly the non-residential tax base, a priority and encourage future commercial and industrial redevelopment, specifically Brownfield Redevelopment, throughout the City's Central Corridor.

Growth in the City has been lagging the surrounding area. The above chart illustrates the lack in City taxable assessed value growth when compared in Genesee County and the Town of Batavia. Both of which have had robust focuses on economic development over the past 15 years, and as a result the cumulative growth in taxable assessed value growth has been more than tripled the City's since 2010.

***Projects completed as part of the 2011 Main Street Grant as well as Carr's Warehouse Building, Ellicott Station and the Newberry Building are all prime redevelopment examples that will improve taxable assessed value, establish new jobs for our residents and provide much needed modern housing options for downtown living. Building tax base is imperative to supporting and maintaining valuable City services at reasonable costs.***

A balanced approach to the City budget needs to include strong initiatives that will provide cost containment but also strategic direction that will improve quality of life. Growth in tax base and resident income are the lifeblood to supporting municipal services, as well as improved quality of life for City residents.

Over the past seven years the City has experienced decreases in State aid as well as, considerable increases in state retirement costs and retiree healthcare costs. In addition, the imposition of the Property Tax Cap further limits the City's ability to combat increasing State mandated costs as the cap imposes a ceiling on the City's ability to levy property taxes. Recently, City of Batavia leadership expressed an "All In" rally-cry setting a goal to achieve \$100 million public-private investment by 2022, placing emphasis on the central business corridor. The City's financial improvement over the past several years has been the result of many necessary reactive and proactive approaches to budgeting and operations for the City. It is critically important that the City continue to spend a considerable effort on planning for the future, most specifically with regards to funding reserves, maintaining and funding capital and equipment replacement plans, and maintaining low cost, high quality services to residents. In addition, resources need to be focused on encouraging tax base growth through economic development efforts promoting land use redevelopment and job growth within the City.

#### **Contacting the City's Financial Management**

This financial report is designed to provide the City's citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City Manager's Office, City of Batavia, Batavia, New York.

**CITY OF BATAVIA, NEW YORK**  
**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND**  
**CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS**  
**TO THE STATEMENT OF ACTIVITIES**  
**FOR THE YEAR ENDED MARCH 31, 2017**

**Net change in fund balances - total governmental funds (page 27)** **\$ (1,294,280)**

Amounts reported for governmental activities in the statement of activities (page 23) are different because:

Governmental funds report capital outlays as expenditures. However in the statement of activities, the cost of those assets are allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$3,535,578) exceeded depreciation (\$1,099,741) in the current period. 2,435,837

The net effect of various miscellaneous transactions involving capital assets (i.e. sales, trades) is to decrease net position. (371,580)

Revenues that are not available to pay current obligations are not reported in the fund financial statements, but they are presented as revenues in the statement of activities. 50,792

Change in the proportionate share of net pension liability reported in the statement of net position does not provide for or require the use of current financial resources and therefore is not reported as revenues or expenditures in the governmental funds (ERS - \$1,219,663, PFRS - \$4,072,693). (5,292,356)

Change in the proportionate share of the net deferred inflows and outflows reported in the statement of net position during the measurement period between the City's contributions and its proportionate share to the total contributions to the pension systems subsequent to the measurement date do not provide for or require the use of current financial resources and therefore are not reported as expenditures in the governmental funds (ERS - \$1,001,560, PFRS - \$3,526,141). 4,527,701

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has an effect on net position. Additionally, in the statement of activities, certain operating expenses are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of the financial resources used (essentially, the amounts paid). The net effect of these differences in the treatment of long-term debt and the related items are as follows:

Serial bonds principal payment	\$	385,000	
Premium liability		3,496	
Installment purchase debt payment		96,498	
Due to other governments		257,601	
Change in compensated absences		538	
Change in other post employment benefits		73,008	816,141

Change in net position of governmental activities **\$ 872,255**

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The basic financial statements of the City of Batavia (the City) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

**A. REPORTING ENTITY**

The City reports related organizations under the guidance of the Governmental Accounting Standards Board. The Standards define the primary government, and redefines and establishes the criteria for which potential component units are included in the reporting entity. The Standards also define financial accountability of the primary government as being determined on the basis of fiscal dependency, appointment of a voting majority of a governing Council, ability to impose its will or potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on the primary government.

According to GASB Statement No. 14, as amended by GASB Statement No. 61, a related organization of a primary government is defined as one in which the government appoints a voting majority of the board, but is not financially accountable for the organization. The City Manager appoints a voting majority of the Batavia Housing Authority's board; however, no financial burden or benefit relationship exists between the City and the Authority. The Authority maintains and runs a senior citizens' housing unit within the City.

The accompanying basic financial statements include only the operations of the City, since management has determined that there are no other organizations that meet the criteria for inclusion in the reporting entity of the City.

**B. JOINT VENTURES**

The City participates in various joint ventures with other local municipalities for the purpose of providing intermunicipal services. These activities are excluded from the financial statements of all participating municipalities.

**C. BASIS OF PRESENTATION**

**1. GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements (reporting the City's major funds). The Statement of Net Position and the Statement of Activities present financial information about the reporting government as a whole. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, intergovernmental revenues, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operation or capital) grants while the capital grants column reflects capital-specific grants. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Activities presents a comparison between direct expenses and direct revenues for each function of the City's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Direct revenues include charges paid by the recipients of goods or services offered by the City, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Revenues that are not classified as direct revenues, including all taxes, are presented as general revenues.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The government-wide focus is on the sustainability of the City as an entity and the change in the City's net position resulting from the current year's activities.

**2. FUND FINANCIAL STATEMENTS**

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, enterprise, and fiduciary. An emphasis is placed on major funds within the governmental and enterprise categories.

**Governmental Funds:**

Governmental funds are those through which most governmental functions are financed. The acquisition, use and balances of expendable financial resources and the related liabilities are accounted for through governmental funds. The measurement focus of the governmental funds is based upon determination of financial position and changes in financial position. The following are the City's governmental fund types:

- a. General Fund - The General Fund is the general operating fund of the City. The fund is used to account for all financial resources except for those required to be accounted for in a separate fund.
- b. Capital Projects Fund – This fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by the Enterprise Funds.

The City reports the following nonmajor funds consolidated into the nonmajor governmental funds column:

Special Revenue Funds – These funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes or for which separate accounting is required by administrative action.

Special Grant Fund – This fund is used to account for community development block grants and other federal and state grants not required to be accounted for in other funds.

Mall Maintenance Fund - This fund is used to account for the maintenance of the Batavia City Centre.

Small Cities Fund - This fund is used to account for the activity of the City's New York Small Cities Block Grant and U.S. Department of Housing and Urban Development programs.

Self-Insurance Fund - This fund is used to account for the City's workers' compensation insurance activity.

**Enterprise Funds:**

These funds are used to account for ongoing operations or activities, which are similar to those often found in the private sector. The measurement focus is based upon determination of net income, financial position and cash flows. The City applies all applicable GASB pronouncements, as well as, Financial Accounting Standards Board's (FASB) Accounting Standards Codification unless these standards conflict with or contradict GASB pronouncements.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Sewer and Water Funds – These funds are used to account for operations that provide water and sewer services and are financed primarily by user charges.

Other Fund Types:

Fiduciary Funds - are used to account for fiduciary activities. Fiduciary activities are those in which the City acts as trustee or agent for resources that belong to others. These activities are not included in the government-wide financial statements because their resources do not belong to the City and are not available for use.

Private-Purpose Trust Fund – This fund is used to account for contributions made by individuals, for the purpose of providing from the income of such contributions, funds to be utilized for fire protection and indigent citizens of the City.

Agency Fund – This fund is used to account for bid deposits, tax redemptions, joint liens and other assets and liabilities that are custodial in nature.

During the course of operations the City has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

**D. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in the governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within sixty days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the City.

The enterprise and private purpose trust funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

**E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION/FUND BALANCE**

**1. CASH AND CASH EQUIVALENTS**

The City's cash and cash equivalents consists of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition.

**2. RESTRICTED CASH AND CASH EQUIVALENTS**

Certain assets are classified on the balance sheet as restricted because their use is limited. The proceeds of bond or bond anticipation note (BAN) sales can only be used for the stated purpose of the borrowing and are restricted specifically for that purpose.

**3. RECEIVABLES**

Accounts receivables are carried at their net realizable value. Accounts are written-off as uncollectible after the likelihood of payment is considered remote by management. The allowance for uncollectible accounts has been established by management, using past history of uncollectible accounts. As of March 31, 2017, the provision for uncollectible accounts amounted to \$39,288 and \$14,216 in the community development and small cities grant funds, respectively.

**4. CAPITAL ASSETS**

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities), the City chose to include all such items regardless of their acquisition date or amount. The City was able to estimate the historical cost for the initial reporting of these assets through back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the City constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Interest incurred during the construction phase of capital assets of enterprise funds is included as part of the capitalized value of the assets constructed. The amount of interest capitalized depends on the specific circumstances. This year tax-exempt bond anticipation notes (BANS) were issued to finance specific improvements related to water and sewer activity. This activity included financing the replacement of the water treatment plant roof and sanitary sewer system improvements. Accordingly, the interest capitalized for the year ended March 31, 2017 for sewer amounted to \$32,088.

Land and construction in progress are not depreciated. Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements are as follows:

	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Infrastructure	\$ 200,000	straight-line	25-50 years
Buildings	50,000	straight-line	25-50 years
Improvements	50,000	straight-line	10-50 years
Furniture and equipment	5,000	straight-line	3-20 years
Vehicles	20,000	straight-line	3-5 years

**5. INSURANCE**

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, personal injury liability, and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Judgments and claims are recorded when it is probable that an asset has been impaired or a liability has been incurred and the amount of loss can be reasonably estimated. Settled claims from these risks has not yet exceeded commercial insurance coverage for the past three fiscal years.

**6. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES**

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City only has one item that qualified for reporting in this category. This is related to pensions reported in the government-wide Statement of Net Position. In relation to the pension, this represents the effect of the net change in the City's proportion of the collective net pension liability and the difference during the measurement period between the City's contributions and its proportional share of total contributions to the pension system not included in pension expense. Also included is the City's contributions to the pension system subsequent to the measurement date. See details of deferred pension outflows in Note 3.D.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items that qualify for reporting in this category. One item is related to pension activity reported in the government-wide Statement of Net Position. This represents the effect of the net change in the City's proportion of the collective net pension liability and difference during the measurement period between the City's contributions and its proportional share of total contributions to the pension system not included in pension expense. See details of deferred pension inflows in Note 3.D. The other item is unavailable revenue related to property taxes and is reported in the governmental funds Balance Sheet.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**7. NET POSITION FLOW ASSUMPTION**

Sometimes the City will fund outlays for a particular purpose from both restricted (i.e., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and enterprise fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the City's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied

**8. FUND BALANCE FLOW ASSUMPTION**

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the City's policy that the City Council will assess the current financial condition of the City and then determine the order of application of expenditures to which fund balance classifications will be charged.

**9. FUND BALANCE POLICIES**

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The City itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the City's highest level of decision-making authority. The City Council is the highest level of decision-making authority for the City that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

The City has adopted a formal fund balance policy in which it shall strive to attain and maintain an adequate fund balance in its general fund to provide flexibility and to mitigate current and future risks (e.g. revenue shortfalls and unanticipated expenditures), to ensure stable tax rates, to provide for one-time opportunities and to retain favorable credit ratings. The City will endeavor to maintain unassigned fund balances in its general fund of ten percent (10%) of regular general fund operating expenditures. This amount provides the liquidity necessary to accommodate the City's uneven cash flow, which is inherent in its periodic tax collection schedule, and to respond to contingent liabilities.

If the unassigned fund balance falls below the 10% minimum fund balance percentage, the Audit Advisory committee will evaluate current fund balance classifications in order to recommend the final distribution of fund balance in any fiscal year in consideration of estimated liabilities of the City and sound financial planning.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as committed. The City Council has by resolution authorized the City Manager to assign fund balance. The Council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

**F. REVENUES AND EXPENDITURES/EXPENSES**

**1. PROGRAM REVENUES**

Amounts reported as program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and, 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

**2. PROPERTY TAXES**

Real property taxes are levied upon budget adoption and become an enforceable lien on April 1<sup>st</sup>. Taxes are payable in two installments on May 1<sup>st</sup> and August 1<sup>st</sup>. The City assumes enforcement responsibility for all property taxes levied by Genesee County (County) on properties within the City. The City also enforces real property taxes of the Batavia City School District (District), which are unpaid at January 1<sup>st</sup>. The City pays the County and the District the full amount of the property taxes collected on their behalf. Any amounts which have been collected as of March 31<sup>st</sup> but have not yet been remitted to the District are included in the account "Due to other governments".

In the fund financial statements, property taxes are recorded as revenue in the period levied to the extent they are collected within 60 days of the fiscal year-end. The City is permitted by the New York State Constitution to levy taxes up to 2% of the most recent five-year average full valuation of taxable real property. Principal and interest on long-term debt related to Water and Sewer debt (if application filed with Office of State Comptroller) and budgetary appropriations for capital outlay are excludable. In the 2016-17 year, the five-year average full valuation was \$545,082,173 allowing for a maximum tax limit of \$10,901,643 (includes allowance exclusions). The City tax levy was \$5,111,384 for the year ended March 31, 2017.

**3. COMPENSATED ABSENCES**

The City's labor agreements and City Council rules and regulations provide for sick and vacation leave. Upon retirement certain eligible employees qualify for paid medical and dental insurance premiums and/or payment for fractional values of unused sick leave. These payments are budgeted annually.

Consistent with GASB Statement No. 16, Accounting for Compensated Absences, an accrual for accumulated sick leave is included in compensated absences at year-end. The compensated absences liability is calculated based on the contractually negotiated rates in effect at year-end.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Compensated absences for governmental fund type employees are reported as a fund liability and as an expenditure in the government-wide financial statements. A portion of the compensated absences liability recognized is attributed to the value of sick leave converted to pay the employees' share of postemployment health insurance premiums. The compensated absences liability for the Governmental and Enterprise funds at the year-end totaled \$2,242,267 and \$439,008, respectively. A liability for those amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Payment of compensated absences recorded in the government-wide financial statements is dependent upon many factors; therefore timing of future payments are not readily determinable. However, management believes that sufficient resources will be made available for the payment of compensated absences when such payments become due.

**4. ENTERPRISE FUNDS – OPERATING AND NONOPERATING REVENUES AND EXPENSES**

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water fund and sewer fund are charges to customers for sales and services. The water fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**G. USE OF ESTIMATES**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

**H. ACCOUNTING PRONOUNCEMENTS**

During the fiscal year ended March 31, 2017, the City adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*; Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets that Are Not within the Scope of GASB Statement No. 68*, and *Amendments to certain Provisions of GASB Statements No. 67 and 68*; Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*; Statement No. 77, *Tax Abatement Disclosures*; Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*; and Statement No. 79, *Certain External Investment Pools and Pool Participants*.

The primary objective of Statement No. 72 is to define fair value, how fair value is measured, what assets and liabilities should be measured at fair value, and what information about fair value should be reported in the notes to the financial statements.

The primary objective of Statement No. 77 is to require governments, such as the City, that enter into tax abatement agreements to disclose information about the City's own tax abatement agreements and those that are entered into by other governments and that reduce the City's tax revenues.

The City has evaluated Statements No. 73, 76, 78 and 79 and have determined that they have no impact on the City's operations.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The GASB has issued the following new pronouncements:

- Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans*, which will be effective for the year ending March 31, 2018;
- Statement No. 75, *Accounting and Financial reporting for Postemployment Benefits Other than Pensions*, which will be effective for the year ending March 31, 2018;
- Statement No. 80, *Blending Requirements for Certain Component Units-an amendment of GASB Statement No. 14*, which will be effective for the year ending March 31, 2018;
- Statement No. 81, *Split-Interest Agreements*, which will be effective for the year ending March 31, 2018;
- Statement No. 82, *Pension Issues-an amendment of GASB Statements No. 67, 68 and 73*, which will be effective for the year ending March 31, 2018;
- Statement No. 83, *Certain Asset Retirement Obligations*, which will be effective for the year ending March 31, 2020;
- Statement No. 84, *Fiduciary Activities*, which will be effective for the year ending March 31, 2020;
- Statement No. 85, *Omnibus*, which will be effective for the year ending March 31, 2019;
- Statement No. 86, *Certain Debt Extinguishment Issues*, which will be effective for the year ending March 31, 2019; and
- Statement No. 87, *Leases*, which will be effective for the year ending March 31, 2021.

The City is currently reviewing these statements and plans on adoption, as required.

**NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**A. LEGAL COMPLIANCE - BUDGETS**

Budgets and Budgetary Accounting – The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- No later than January 15<sup>th</sup>, the Budget Officer/City Manager submits a tentative budget to the City Council for the fiscal year commencing the following April 1<sup>st</sup>. The tentative budget includes proposed expenditures and the proposed means of financing for all funds except Capital Projects and the Fiduciary Funds.
- After public hearings are conducted to obtain taxpayer comments, no later than March 20<sup>th</sup>, the City Council adopts the budget.
- All modifications of the budget must be approved by the City Council, however, the Budget Officer/City Manager is authorized to transfer certain budgeted amounts within departments.
- Budgets are prepared for Enterprise Funds to establish the estimated contributions required from other funds and to control expenditures.

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS**

**A. DEPOSITS AND INVESTMENTS**

The City's investment policies are governed by state statutes. In addition, the City has its own written investment policy. City monies must be deposited in FDIC-insured commercial banks or trust companies located within the state. The City Manager is authorized to use interest bearing demand accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and U.S. agencies, repurchase agreements and obligations of the State of New York and its localities.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

Collateral is required for demand deposits and certificates of deposits not covered by federal deposit insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the state and its municipalities and school districts.

The City's aggregate bank balances were fully collateralized at March 31, 2017.

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. These assets represent amounts required by statute to be reserved for various purposes. Restricted cash as of year end includes \$583,417 and \$166,000 in the Sewer and Water Funds, respectively, from unexpended bond anticipation note proceeds, and \$21,457 in the Private Purpose Trust Fund restricted for fire protection and assistance to citizens.

**Investment and Deposit Policy**

The City follows an investment and deposit policy, the overall objective of which is to adequately safeguard the principal amount of funds invested or deposited; conformance with federal, state and other legal requirements; and provide sufficient liquidity of invested funds in order to meet obligations as they become due. Oversight of investment activity is the responsibility of the City Manager.

**Interest Rate Risk**

Interest rate risk is the risk that the fair value of investments will be affected by changing interest rates. The City's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Credit Risk**

The City's policy is to minimize the risk of loss due to failure of an issuer or other counterparty to an investment to fulfill its obligations. The City's investment policy authorizes the reporting entity to purchase the following types of investments:

- Interest bearing demand accounts.
- Certificates of deposit.
- Obligations of the United States Treasury and United States agencies.
- Obligations of New York State and its localities.

**Custodial Credit Risk**

Custodial credit risk is the risk that in the event of a failure of a depository financial institution, the reporting entity may not recover its deposits. In accordance with the City's investment policy, all deposits of the City including interest bearing demand accounts and certificates of deposit, in excess of the amount insured under the provisions of the Federal Deposit Insurance Act (FDIC) shall be secured by a pledge of securities with an aggregate value equal to 100% of the aggregate amount of deposits. The City restricts the securities to the following eligible items:

- Obligations issued, fully insured or guaranteed as to the payment of principal and interest, by the United States Treasury and United States agencies.
- Obligations issued or fully insured or guaranteed by New York State and its localities.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

**B. RECEIVABLES**

Significant revenues accrued by the City at March 31, 2017, include the following:

<u>Capital Fund:</u>	
Cedar Street reimbursements	\$ 7,125
Summit Street reimbursements	307,923
Preventative Maintenance reimbursements	49,602
Healthy Schools reimbursements	<u>51,578</u>
Total state and federal receivables	<u>\$ 416,228</u>
<u>Water Fund:</u>	
Water rents receivable	\$ 1,182,499
Miscellaneous	<u>12,605</u>
Total receivables	<u>\$ 1,195,104</u>
<u>Sewer Fund:</u>	
Sewer rents receivable	\$ 764,007
Miscellaneous	<u>4,798</u>
Total receivables	<u>\$ 768,805</u>

Due from Other Governments - represents amounts due primarily from the County, and other governmental entities. Amounts accrued at March 31, 2017, consist of:

<u>General Fund:</u>	
NYS sales tax	\$ 1,337,574
Fines and forfeitures	<u>16,557</u>
Total governmental activities due from other governments	<u>\$ 1,354,131</u>
<u>Water Fund:</u>	
City/County water agreement	<u>\$ 533,825</u>

**C. CAPITAL ASSETS**

Capital asset activity for the year ended March 31, 2017, was as follows:

**Governmental Activities:**

	Balance 04/01/16	Increases	Decreases	Balance 03/31/17

**D. PENSION OBLIGATIONS**

***New York State and Local Employees' Retirement System (ERS) and the New York State and Local Police and Fire Retirement System (PFRS) (the Systems)***

**PLAN DESCRIPTION**

The City participates in the New York State and Local Police and Fire Retirement System (PFRS) and the New York State and Local Employees' Retirement System (ERS), which are collectively referred to as the New York State and Local Retirement System (the System). The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement fund (the fund), which was established to hold all assets and record changes in fiduciary net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the fund and is the administrative head of the System. System benefits are established under the provisions of the NYSRSSL. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The City also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. That report, including information with regards to benefits provided, may be found at [www.osc.state.ny.us/retire/publications/index.php](http://www.osc.state.ny.us/retire/publications/index.php) or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

**FUNDING POLICY**

The System is noncontributory, except for employees who joined the ERS after July 27, 1976 who contribute three percent (3%) of their salary for the first ten years of membership, and employees who joined on or after January 10, 2010 (ERS) or January 9, 2010 (PFRS), who generally contribute three percent (3%) to three and one half percent (3.5%) of their salary for their entire length of service. In addition, employee contribution rates under ERS Tier VI vary based on a sliding salary scale. The Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the System's fiscal year ending March 31<sup>st</sup>.

**PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS**

At March 31, 2017, the City reported the following liability for its proportionate share of the net pension liability for each of the Systems. The net pension liability was measured as of March 31, 2016 for PFRS and ERS. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the System relative to the projected contributions of all participating members, actuarially determined. This information was provided by the ERS and PFRS Systems in reports provided to the City.

	<u>ERS</u>	<u>PFRS</u>
Measurement date	March 31, 2016	March 31, 2016
Net pension liability	\$2,564,323	\$4,482,389
City's portion of the Plan's total net pension liability	0.159768%	0.1513918%

For the year ended March 31, 2017, the City recognized pension expense of \$2,460,625. At March 31, 2017, the City reported deferred outflows of resources and deferred inflows of resources related to pensions arose from the following sources:

	<u>Deferred Outflows of Resources</u>		<u>Deferred Inflows of Resources</u>	
	<u>ERS</u>	<u>PFRS</u>	<u>ERS</u>	<u>PFRS</u>
Differences between expected and actual experience	\$ 12,958	\$ 40,203	\$ 303,958	\$ 677,683
Changes of assumptions	683,828	1,932,343	-	-
Net difference between projected and actual earnings on pension plan investments	1,521,297	2,512,017	-	-
Changes in proportion and differences between the City's contributions and proportionate share of contributions	27,093	3,182	115,819	370,542
City's contributions subsequent to the measurement date	<u>520,421</u>	<u>1,023,988</u>	<u>-</u>	<u>-</u>
Total	<u>\$2,765,597</u>	<u>\$5,511,733</u>	<u>\$ 419,777</u>	<u>\$1,048,225</u>

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

The City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended March 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	<u>ERS</u>	<u>PFRS</u>
Year ended:		
2017	\$ 459,459	819,502
2018	459,459	819,502
2019	459,459	819,502
2020	447,022	784,525
2021	-	196,489
Thereafter	-	-

**ACTUARIAL ASSUMPTIONS**

The total pension liability as of the March 31, 2016, was determined by using an actuarial valuation as of April 1, 2015, with update procedures used to roll forward the total pension liability to March 31, 2016. The actuarial valuation used the following actuarial assumptions:

	<u>ERS</u>	<u>PFRS</u>
Inflation	2.5%	2.5%
Salary increases	3.8%	4.5 %
Investment rate of return (net of investment expense, including inflation)	7.0%	7.0%
Cost of living adjustments	1.3%	1.3%
Decrement tables	April 1, 2010 – March 31, 2015	April 1, 2010 – March 31, 2015

Annuitant mortality rates are based on April 1, 2010 – March 31, 2015 System's experience with adjustments for mortality improvements based on the Society of Actuaries Scale MP-2014. The actuarial assumptions used in the April 1, 2015 valuation are based on the results of an actuarial experience study for the period April 1, 2010 – March 31, 2015.

The long term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of March 31, 2016, are summarized below:

<u>Asset Class:</u>	<u>Target Asset Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	38.0%	7.3%
International equity	13.0	8.6
Private equity	10.0	11.0
Real estate	8.0	8.3
Absolute return strategies	3.0	6.8
Opportunistic portfolio	3.0	8.6
Real assets	3.0	8.7
Bond and mortgages	18.0	4.0
Cash	2.0	2.3
Inflation-indexed bonds	2.0	4.0
Total	<u>100.0%</u>	

**DISCOUNT RATE**

The discount rate used to calculate the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based upon the assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**SENSITIVITY OF THE PROPORTIONATE SHARE OF THE NET PENSION LIABILITY TO THE DISCOUNT RATE ASSUMPTION**

The following tables present the City's proportionate share of the net pension liability calculated using the discount rate of 7.0%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.0%) or 1-percentage point higher (8.0%) than the current rate:

	<u>1% Decrease (6.0%)</u>	<u>Current Assumption (7.0%)</u>	<u>1% Increase (8.0%)</u>
<b><u>ERS</u></b>			
City's proportionate share of the net pension liability (asset)	\$5,782,363	\$2,564,323	(\$154,783)
<b><u>PFRS</u></b>			
City's proportionate share of the net pension liability (asset)	\$10,011,888	\$4,482,389	(\$152,529)

**PENSION PLAN FIDUCIARY NET POSITION**

The components of the current-year net pension liability of the employers as of March 31, 2016 were as follows:

	<u>ERS</u>	<u>PFRS</u>	<u>Total</u>
	<u>(Dollars in Thousands)</u>		
Employers' total pension liability	\$ 172,303,544	\$ 30,347,727	\$ 202,651,271
Plan net position	<u>156,253,265</u>	<u>27,386,940</u>	<u>183,640,205</u>
Employers' net pension liability	<u>\$ 16,050,279</u>	<u>\$ 2,960,787</u>	<u>\$ 19,011,066</u>
Ratio of Plan net position to the Employers' total pension liability	90.7%	90.2%	90.6%

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

**E. OTHER POSTEMPLOYMENT BENEFIT OBLIGATIONS (OPEB)**

***City of Batavia Retiree Medical Plan (the Plan)***

**PLAN DESCRIPTION**

The City of Batavia (the City), administers the Plan as a single-employer defined benefit OPEB plan. The Plan provides for continuation of health insurance benefits for certain retirees and their spouses and can be amended by action of the City subject to applicable collective bargaining and employment agreements. The Plan does not issue a stand alone financial report since there are no assets legally segregated for the sole purpose of paying benefits under the Plan.

The City provides postemployment health insurance to its retirees in accordance with provisions of the employment contracts negotiated between the City and the Batavia Firefighters Association, I.A.F.F Local 896, the Civil Service Employees Association, CSEA Local 819, the American Federation of State, County and Municipal Employees, AFSCME Local 3632 and the Batavia Police Benevolent Association. Substantially all employees in these bargaining units may become eligible for these benefits if they meet the retirement eligibility requirements under their contracts while working for the City.

**FUNDING POLICY**

The obligations of the plan members, employers and other entities are established by action of the City pursuant to applicable collective bargaining and employment agreements. The required contribution rates of the employer and the members vary depending on the applicable agreement. The employer currently contributes enough money to the Plan to satisfy current obligations on a pay-as-you-go basis. The costs of administering the Plan are paid by the City.

**ACCOUNTING POLICY**

The accrual basis of accounting is used. The fair market value of assets, if any, is determined by the market value of assets, if any, paid by a willing buyer to a willing seller.

**ANNUAL OPEB COST AND NET OPEB OBLIGATION**

The City's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC). The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the Plan, and the City's net OPEB obligation to the Plan at March 31, 2017:

Annual required contribution (ARC)	\$ 495,924
Interest on net OPEB obligation	157,360
Adjustment to ARC	<u>(227,504)</u>
Annual OPEB cost (expense)	425,780
Contributions for fiscal year ended March 31, 2017	<u>(500,585)</u>
Increase in net OPEB obligation	(74,805)
Net OPEB obligation - beginning of year	<u>3,934,010</u>
Net OPEB obligation - end of year	\$ <u>3,859,205</u>
Percentage of expense contributed	117.57%

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

The City's annual OPEB cost, contribution, percentage of OPEB cost contributed, and net postemployment benefit obligation for the Plan for the current fiscal year ended March 31, 2017, and the two preceding years are as follows:

<u>Fiscal Year</u>	<u>Annual OPEB Cost</u>	<u>Employer Contribution</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
2017	\$ 495,924	\$ 500,585	117.57%	\$3,859,205
2016	764,168	542,768	71.03%	3,934,010
2015	764,166	314,727	41.19%	3,712,610

**FUNDED STATUS AND FUNDING PROGRESS**

As of April 1, 2016, the most recent actuarial valuation, the actuarial accrued liability for benefits was \$6,015,804, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was not available, and the ratio of the unfunded actuarial accrued liability to the covered payroll was not available. The total postemployment health insurance cost to the City for 28 retirees was \$425,780 for the year ended March 31, 2017.

Actuarial valuations for OPEB involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. These actuarially determined amounts are subject to continual revisions as actual results are compared to past expectations and new estimates are made about the future. The schedule of funding progress presented immediately following the financial statements as required supplementary information, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

**METHODS AND ASSUMPTIONS**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members. The actuarial calculations of the OPEB plan reflect a long-term perspective. Consistent with this perspective, actuarial valuations will use actuarial methods and assumptions that include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets. The following assumptions were made:

The April 1, 2016 actuarial valuation utilized the entry age actuarial cost method. The actuarial valuation included a 4.0 percent investment rate of return (net of administrative expenses), which is the expected short-term investment rate of the City's own assets, and an annual healthcare cost trend of 7.5 percent initially, reduced by decrements to an ultimate rate of 3.9 percent for participants under age 65 and 6.5 percent initially reduced by decrements to an ultimate rate of 3.9 percent for participants over age 65. Both rates included a 2.25 percent inflation assumption. The UAAL is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period is not to exceed thirty years.

**F. COMMITMENTS**

**ENCUMBRANCES**

Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e. purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executory contract is expended in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

The City considers encumbrances to be significant for amounts that are encumbered in excess of \$50,000. As of March 31, 2017, there were no significant encumbrances. The City recorded encumbrances of \$124,559 in the General Fund.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

**CONSTRUCTION COMMITMENTS**

The City has ongoing construction capital projects related to various infrastructure throughout the City. The total of these commitments amounted to approximately \$746,494 at year end.

**COUNTY WATER AGREEMENT**

During the year ended March 31, 2008, the City entered into an agreement with the County whereby the County has assumed responsibility for the production, treatment, operation, maintenance and/or supply of municipal water. Under the terms of the agreement, the County has agreed to lease the City's water supply and treatment facilities for a term not to exceed 10 years. The agreement also calls for the transfer of title to, access to, and/or rights to the County for certain machinery and equipment used in connection with the water supply and treatment facility. In addition, the City entered into an operational agreement with the County to operate and maintain the facilities.

In exchange, the City has agreed to purchase water from the County on a wholesale basis. The City rate for city water customers in effect for the fiscal year ended March 31, 2017 was \$4.95 per 1,000 gallons for the first 300,000 gallons. This rate is subject to adjustment on April 1<sup>st</sup> of each subsequent year. Subsequent to year end, these rates were increased to \$5.12 per 1,000 gallons.

**G. RISK MANAGEMENT**

**RISK FINANCING AND RELATED INSURANCE**

**HEALTH INSURANCE PLAN**

The City independently self-insures costs related to an employee health insurance plan (the Plan). The Plan's objectives are to formulate, develop, and administer a health insurance program to obtain lower costs for coverage, and to develop a comprehensive loss control program. The Plan uses reinsurance agreements to reduce exposure to large losses on insured events. Reinsurance permits recovery of a portion of the losses from the reinsurer, although it does not discharge the liability of the Plan as a direct insurer of the risks reinsured.

Third party insurance is maintained by the City with a stop loss for the health insurance plan in the amount of \$150,000 per event for the plan's fiscal year.

Since actual claim costs depend on complex factors, the process of computing claim liabilities does not necessarily result in an exact amount. Such liabilities are based on the ultimate cost of claims (including future claim adjustment expenses) that have been incurred but not charged or credited to expense in the periods in which they are made. As of March 31, 2017, the City recorded liabilities in the amounts of \$118,195, \$11,778 and \$6,985 in the General, Water and Sewer Funds, respectively, for incurred but not reported insured events.

**WORKERS' COMPENSATION PLAN**

The City is independently self-insured for costs related to an employee workers' compensation plan (the Plan). The self-insured Plan's objectives are to formulate, develop, and administer a workers' compensation program to obtain lower costs for coverage, and to develop a comprehensive loss control program. The Plan uses reinsurance agreements to reduce exposure to large losses on insured events. Reinsurance permits recovery of a portion of the losses from the reinsurer, although it does not discharge the liability of the Plan as a direct insurer of the risks reinsured.

Since actual claim costs depend on complex factors, the process of computing claim liabilities does not necessarily result in an exact amount. Such liabilities are based on the ultimate cost of claims (including future claim adjustment expenses) that have been incurred but not charged or credited to expense in the periods in which they are made. As of March 31, 2017, the City has recorded a liability for future costs associated with open claims of \$287,344. The City has not consulted an actuary and has not estimated a liability for incurred but not reported claim liabilities. Claim activity consists of open claims being revalued and payment on claims.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

Changes in the reported liability since March 31, 2015 resulted from the following:

	<u>Health Insurance</u>	<u>Workers' Compensation</u>	<u>Total</u>
Estimated claims March 31, 2015	\$ 182,435	\$ 58,017	\$ 240,452
Claims incurred 2015-16	1,306,759	-	1,306,759
Payments 2015-16	<u>1,367,101</u>	<u>17,502</u>	<u>1,384,603</u>
Estimated claims March 31, 2016	\$ 122,093	\$ 40,515	\$ 162,608
Claims incurred 2016-17	1,871,228	287,344	2,158,572
Payments 2016-17	<u>1,856,363</u>	<u>40,515</u>	<u>1,896,879</u>
Estimated claims March 31, 2017	<u>\$ 136,958</u>	<u>\$ 287,344</u>	<u>\$ 424,302</u>

**SHORT-TERM DEBT**

The purpose of all of the short-time borrowings was to provide resources for various capital construction or improvement projects. The form of financing used in all cases was bond anticipation notes (BAN). The amounts issued for governmental activities are accounted for in the capital projects fund. The amounts issued for business-type activities relate to two funds and are therefore reported in the sewer and water enterprise funds.

State law requires that bond anticipation notes issued for capital purposes be converted to long-term obligations within five years after the original issue date, if not completely repaid. However, bond anticipation notes issued for assessable improvement projects may be renewed for periods equivalent to the maximum life of the permanent financing, provided that stipulated annual reductions of principal are made.

The schedule below details the changes in short-term capital borrowings during the year ended March 31, 2017:

	<u>Original Issue</u>	<u>Interest Rate</u>	<u>Balance 04/1/16</u>	<u>Issued</u>	<u>Redemptions</u>	<u>Balance 03/31/17</u>
<b>Business-Type Activities:</b>						
Sanitary Sewer System Improvements	2015	1.00%	\$3,720,000	\$3,405,000	\$3,720,000	\$3,405,000
Replacement of Water Treatment Roof	2015	1.00%	<u>330,000</u>	<u>166,000</u>	<u>330,000</u>	<u>166,000</u>
Total business-type activities			<u>\$4,050,000</u>	<u>\$3,571,000</u>	<u>\$4,050,000</u>	<u>\$3,571,000</u>

**H. LONG-TERM LIABILITIES**

**GENERAL OBLIGATION BONDS**

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities. General obligation bonds are direct obligations and pledge the full faith and credit of the City. General obligation bonds outstanding at March 31, 2017 are as follows:

**Governmental Activities**

<u>Issue Description</u>	<u>Original Issue Date</u>	<u>Original Borrowing</u>	<u>Interest Rates to Maturity</u>	<u>Final Maturity</u>	<u>Outstanding Balance 03/31/17</u>
<b>General Obligation Bonds:</b>					
Dwyer and BID - Refunding	2011	\$ 1,200,000	2-3.125%	2020	\$ 490,000
City Centre - Refunding	2014	2,856,000	2-3.750%	2033	2,596,000
Various Projects	2005	1,795,000	4-5.000%	2021	<u>440,000</u>
					<u>\$3,526,000</u>

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

**Business-Type Activities**

<u>Issue Description</u>	<u>Original Issue Date</u>	<u>Original Borrowing</u>	<u>Interest Rates to Maturity</u>	<u>Final Maturity</u>	<u>Outstanding Balance 03/31/17</u>
<u>General Obligation Bonds:</u>					
State clean water and drinking water	1999	\$ 2,165,590	3.48-5.43%	2019	\$ 405,000
City Centre - Refunding	2014	714,000	2-3.750%	2033	649,000
					<u>\$1,054,000</u>

**LEGAL DEBT MARGIN**

The City is subject to a debt limit that is 7.0 percent of the five-year average of the full valuation of taxable real property. At March 31, 2017, that amount was \$38,155,752. As of March 31, 2017, the total outstanding debt applicable to the limit was \$4,255,500 which is 11.15% of the total debt limit.

**CHANGES IN LONG-TERM LIABILITIES**

Changes in the government's long-term liabilities for the year ended March 31, 2017 are as follows:

	<u>Balance 04/01/16</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance 03/31/17</u>	<u>Due Within One Year</u>
<b>Governmental Activities</b>					
Bonds Payable:

\*Additions to net pension liability are shown net of reductions.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

As of March 31, 2017 there was \$3,283,000 in authorized but unissued bonds for the use on water system improvements (\$2,438,000) and sewer system improvements (\$845,000).

The debt service requirements for the government's bonds and installment purchase debt are as follows:

**Governmental Activities**

Year ending March 31,	General Obligation Bonds		Premium on Bonds	Installment Purchase Debt	
	Principal	Interest		Principal	Interest
2018	\$ 363,000	\$ 115,475	\$ 3,497	\$ 102,747	\$ 10,858
2019	363,000	103,665	3,497	107,102	8,857
2020	362,000	91,930	3,497	107,983	6,775

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

**COMPENSATED ABSENCES**

As explained in Note 1, the City records the value of governmental and enterprise type compensated absences. The annual budgets of the respective funds of which the employees' payroll is recorded provide funding for these benefits as they become payable throughout the year. Payments by the City to liquidate compensated absences are typically from the funds in which the individuals are employed. These operating funds include General, Sewer and Water funds. Since the payment of compensated absences is dependent upon many factors, the timing of future payments is not readily determinable. While the payments of compensated absences are dependent upon many factors, the City has estimated that \$224,227 and \$43,901 for the governmental activities and business-type activities will be due within one year, respectively.

**OPEB OBLIGATION**

As explained in Note 3.E., the City records the value of other postemployment benefits. Payments by the City to liquidate other postemployment benefits are typically from the funds in which the individuals are employed. These operating funds include General, Sewer and Water funds.

**NET PENSION LIABILITY**

The City reported a liability of \$5,995,339 and \$1,051,373 for the governmental activities and business-type activities, respectively for the year ended March 31, 2017 for its proportionate share of the net pension liability for the Police and Fire Retirement System and the Employee Retirement System. Refer to Note 3.D for additional information related to the City's net pension liability. Payments by the City for retirement contributions are typically from funds in which the individuals are employed. These operating funds include General, Sewer and Water funds.

**I. NET POSITION AND FUND BALANCE**

**NET POSITION**

The government-wide financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

Net investment in capital assets – This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and debt used to fund capital asset purchases reduce the balance in this category. The following presents a reconciliation of capital assets (net of accumulated depreciation), to net investment in capital assets:

	<u>Governmental Activities</u>	<u>Business-type Activities</u>
Capital assets, net of accumulated depreciation	\$ 23,582,816	\$ 27,631,223
Bonds payable used for capital assets	(3,526,000)	(1,054,000)
Unamortized debt premium	(55,890)	(13,972)
Installment purchase debt	(561,743)	(210,606)
Bond anticipation notes used for capital assets	-	(3,571,000)
Unspent debt proceeds	-	749,417
Net investment in capital assets	<u>\$ 19,439,183</u>	<u>\$ 23,531,062</u>

Restricted net position – This category presents external restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation. Restricted net position is consistent with restricted fund balance balances at March 31, 2017.

Unrestricted net position – This category represents net position of the City not restricted for any project or other purpose.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

**FUND BALANCE**

In the fund financial statements there are five classifications of fund balance:

Nonspendable – represents amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. As of March 31, 2017, the City had no nonspendable fund balances.

Restricted – represents amounts with constraints placed on the use of resources and are either externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

- *Restricted for retirement contribution* – represents funds set aside for any upcoming retirement contributions required of the City.
- *Restricted for employee benefit accrued liability* – represents funds set aside for compensated absences of City employees.
- *Restricted for insurance* – represents funds set aside for medical, workers' compensation and liability claims.
- *Restricted for capital projects* – represents funds to be used for construction, reconstruction and/or acquisition of capital improvements and equipment.
- *Restricted for repairs* – represents funds set aside to be used for repairs of Dwyer Stadium.
- *Restricted for special grant and small cities funds* – represents funds that had restrictions externally imposed by the funding agency that provided funding for the loan programs administered by the City.

Committed – represents amounts that are subject to a purpose constraint imposed by a formal action of the City's highest level of decision-making authority. As of March 31, 2017, the City had committed fund balances for the following purposes:

Master plan	\$ 100,000
Williams Park	40,000
Vibrant Batavia	<u>52,611</u>
	<u>\$ 192,611</u>

Assigned – represents amounts that are constrained by the City's intent to be used for the specified purposes noted below, but are neither restricted nor committed.

Unassigned – represents all amounts not included in other spendable classifications. The General fund is the only fund that would report a positive amount in unassigned fund balance. Residual deficit amounts of other governmental funds would also be reported as unassigned.

**DETAIL OF FUND BALANCES**

As of March 31, 2017, fund balances were classified as follows:

	<u>General</u>	<u>Capital</u>	<u>Nonmajor Funds</u>	<u>Total</u>
<b><u>Restricted:</u></b>				
Retirement contribution	\$ 288,240	\$ -	\$ -	\$ 288,240

Total	<u>\$ 7,105,375</u>	<u>\$ 104,051</u>	<u>\$ 1,111,336</u>	<u>\$8,320,762</u>

Reclassifications – Certain reclassifications have been made to the equity balances to account for activity related to workers compensation and self insurance.

**J. INTERFUND RECEIVABLES AND PAYABLES**

The composition of interfund balances as of March 31, 2017, is as follows:

***Due from/to other funds:***

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Capital	\$ 381,679

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 3 - DETAIL NOTES ON ALL ACTIVITIES AND FUNDS (Continued)**

**K. INTERFUND TRANSFERS**

The composition of interfund transfers as of March 31, 2017, are as follows:

***Interfund transfers:***

	<u>General</u>	<u>Water</u>	<u>Sewer</u>	<u>Total Transfers In</u>
General				
	\$ -	\$ 233,553	\$ 22,032	\$ 255,585
Capital Projects	144,644	-	-	144,644
Community Development	125,000	-	-	125,000
Self-Insurance	<u>322,090</u>	<u>43,740</u>	<u>31,810</u>	<u>397,640</u>
<b>Total Transfers Out</b>	<b><u>\$ 591,734</u></b>	<b><u>\$ 277,293</u></b>	<b><u>\$ 53,842</u></b>	<b><u>\$ 922,869</u></b>

During the year, transfers were made per the adopted budget for various purposes.

**L. AGENCY FUND**

An agency fund exists for the temporary deposit of funds that are custodial in nature. The following is a summary of changes in assets and liabilities for the year ended March 31, 2017:

	<u>Balance 04/01/2016</u>	<u>Additions</u>	<u>Deductions</u>	<u>Balance 03/31/2017</u>
<b><u>ASSETS</u></b>				
Cash and cash equivalents	\$ <u>129,645</u>	\$ <u>112,990</u>	\$ <u>41,957</u>	\$ <u>200,678</u>
<b><u>LIABILITIES</u></b>				
Agency liabilities	\$ <u>129,645</u>	\$ <u>112,990</u>	\$ <u>41,957</u>	\$ <u>200,678</u>

**M. CONTINGENCIES**

Grants – In the normal course of operations, the City receives grant funds from various Federal and State agencies. These grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting authority. Any disallowed expenditures resulting from such audits could become a liability of the governmental or enterprise funds. While the amount of any expenditures which may be disallowed cannot be determined at this time, management expects any amounts to be immaterial.

The City is also involved in litigation arising in the ordinary course of its operations. The City believes that its ultimate liability, if any, in connection with these matters will not have a material effect on the City's financial condition or results of operations.

**N. LANDFILL CLOSURE COSTS**

The City has been identified by the United States Environmental Protection Agency (EPA) as a responsible party which can be held liable for a portion of the long-term maintenance and operation of a landfill site in the Town of Batavia.

The cost for the long-term maintenance and operation of the landfill has been estimated to be approximately \$383,657. All parties designated as potentially responsible parties by the EPA participated in a Pilot Allocation Program. As a result of the Pilot Allocation Program, 75% of the long-term operation and maintenance costs have been allocated to the City, or \$287,743. As of March 31, 2017, a liability has been recorded in the Governmental activities funds for future maintenance and operation costs.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO BASIC FINANCIAL STATEMENTS**

**NOTE 4 – TAX ABATEMENTS**

The Genesee Industrial Economic Development Agency d/b/a Genesee County Economic Development Corporation (the Agency), created by Chapter 565 of the Laws of 1970 of the State of New York pursuant to Title I of Article 18-A of General Municipal Law of the State of New York (collectively “the Act”), has seventeen real property tax abatement agreements with various businesses in the City under Section 412-a of the New York State Real Property Tax Law and Section 874 of the Act for the purpose of economic development in the City.

Generally, these agreements provide for a 100 percent abatement of real property taxes in exchange for a payment in lieu of taxes (PILOT) based on the requirements noted in said individual agreements. Should the property owner not comply with the policies and laws as set forth in each agreement, the PILOT will discontinue as outlined in each agreement.

As a result of these tax abatement agreements, for the year ended March 31, 2017, the City’s total tax revenues were reduced by \$109,421.

Copies of the agreements may be obtained from the City Hall, One Batavia City Centre, Batavia, NY 14020.

**NOTE 5 – SUBSEQUENT EVENTS**

Management has evaluated subsequent events through September 26, 2017 which is the date the financial statements are available for issuance, and have determined there are no subsequent events that require disclosure under generally accepted accounting principles.

**CITY OF BATAVIA, NEW YORK**  
**NOTE TO REQUIRED SUPPLEMENTARY INFORMATION**

**BUDGETARY INFORMATION**

**1. BUDGETARY BASIS OF ACCOUNTING**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund and self insurance fund, a nonmajor fund. The capital projects fund is appropriated on a project-length basis. Other special revenue funds do not have appropriated budgets since other means control the use of these resources (e.g., grant awards and endowment requirements) and sometimes span a period of more than one fiscal year. The water and sewer enterprise funds have a budget that is utilized for cost control purposes.

The appropriated budget is prepared by fund, function, and department. The City's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the city council or, in certain limited circumstances the City Manager. The legal level of budgetary control (e.g., the level at which expenditures may not legally exceed appropriations) is the department level.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

**CITY OF BATAVIA, NEW YORK**  
**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

**NOTE 1 - BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) presents the activity of the federal financial assistance programs administered by the City of Batavia, New York (the City), an entity as defined in Note 1 to the City's basic financial statement. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Federal awards received directly from federal agencies, as well as, federal awards passed through from other government agencies are included in the schedule. Because the schedule presents only a selected portion of the operations of the City, it is not intended and does not present the financial position, changes in net position, or cash flows of the City.

**NOTE 2 - BASIS OF ACCOUNTING**

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain expenditures are not allowable or are limited as to reimbursement. The amounts reported as federal expenditures were obtained from the City's financial reporting system, which is the source of the City's basic financial statements.

**NOTE 3 – INDIRECT COST**

The City has elected not to use the 10-percent de minimis indirect cost rate allowable under the Uniform Guidance.

## **INTERNAL CONTROL AND COMPLIANCE**

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

**INDEPENDENT AUDITOR'S REPORT**

The President and Member of the Council of the City of Batavia  
Batavia, New York

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Batavia, New York (the City), as of and for the year ended March 31, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated September 26, 2017.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion of the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*Freed Maxick CPAs, P.C.*

Batavia, New York  
September 26, 2017

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND  
REPORT ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE**

**INDEPENDENT AUDITOR'S REPORT**

The President and Member of the Council of the City of Batavia  
Batavia, New York

**Report on Compliance for Each Major Federal Program**

We have audited the City of Batavia, New York's (the City) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended March 31, 2017. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

**Opinion on Each Major Federal Program**

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended March 31, 2017.

## Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR NEW YORK STATE  
DEPARTMENT OF TRANSPORTATION ASSISTANCE EXPENDED  
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE  
IN ACCORDANCE WITH DRAFT PART 43 OF NYCRR**

**INDEPENDENT AUDITOR'S REPORT**

The President and Member of the Council of the City of Batavia  
Batavia, New York

**Report On Compliance For Each Major State Assistance Transportation Program**

We have audited the City of Batavia, New York's, (the City) compliance with the types of compliance requirements described in the preliminary Draft Part 43 of the New York State Codification of Rules and Regulations (NYCRR) that could have a direct and material effect on the major state transportation assistance program tested for the year ended March 31, 2017. The City's program tested is identified in the summary of audit results section of the accompanying schedule of findings and questioned costs for state transportation assistance expended.

**Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its major state transportation assistance program.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the City's major state transportation assistance program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the preliminary Draft Part 43 of NYCRR. Those standards and the preliminary Draft Part 43 of NYCRR require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the state transportation assistance program tested has occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state transportation assistance program tested. However, our audit does not provide a legal determination of the City's compliance.

**Opinion on Each Major State Transportation Assistance Program**

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major state transportation assistance program for the year ended March 31, 2017.

## Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with types of requirements that could have a direct and material effect on each major state transportation assistance program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state transportation assistance program and to test and report on the internal control over compliance in accordance with the preliminary Draft Part 43 of NYCRR, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

*A deficiency in internal control over compliance* control exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state transportation assistance program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state transportation assistance program will not be prevented, or detected and corrected on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state transportation assistance program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the preliminary Draft Part 43 of NYCRR. Accordingly, this report is not suitable for any other purpose.
